SECTIONS AFFECTED: California Code of Regulations, Title 4, Division 18: Sections 12003, 12200, 12200.7, 12200.9, 12200.10A, 12200.11, 12200.13, 12200.16, 12200.18, 12220, 12220.13, 12220.16, 12220.18, 12220.21, 12250, 12260, 12261, 12262, 12263, 12264, 12285, 12290, 12560, and 12562

SPECIFIC PURPOSE OF REGULATORY PROPOSAL:

INTRODUCTION:

The California Gambling Control Commission (Commission) is proposing regulations that would amend previously adopted regulations related to the playing book requirements for Third-Party Providers of Proposition Player Services (TPPPS) and Gambling Businesses. The amendments would better implement various aspects of the Gambling Control Act (Act)¹ and add criteria for an electronic playing book option.

PROBLEM ADDRESSED:

Playing books are records of each session of play performed by a third-party proposition player or a gambling business player. These records are used to document each player's bank activity. This information is also used by the Bureau of Gambling Control (Bureau) in investigations and compliance reviews to confirm that there are no acts of collusion or unsuitable, unfair, or illegal practices that would harm patrons or impair the integrity of controlled gambling.

Current regulations require hardcopy playing books to be maintained by TPPPS and Gambling Businesses in order to document each player's session of play. Current regulations do not include an option to maintain this documentation electronically. Without a change in the current regulations, each TPPPS and Gambling Business must maintain hardcopy playing books for review by the Bureau.

¹ Business and Professions Code section 19800, et seq.

Section 19984 provides that a gambling enterprise may contract with a third party for the purpose of providing proposition player services to participate in the play of a controlled game that has a rotating player-dealer position. Therefore, a TPPPS is licensed to be able to contract to provide those services. A Gambling Business is licensed in accordance with paragraph (3) of subsection (a) of section 19853, because it conducts its business on the premises of a gambling establishment. Like the TPPPS, Gambling Businesses participate in the play of controlled games that have a rotating player-dealer position, but they do so independently without a contract with the gambling enterprise. The regulations for TPPPS and Gambling Businesses are found in Chapters 2.1 and 2.2 respectively. With the exception of the contractual requirements for TPPPS and procedural differences resulting from those contracts, Chapters 2.1 and 2.2 are nearly identical due to the similarity of the activities that each entity performs.

Current regulations require TPPPS to submit their playing book form with each contract between a TPPPS and a gambling enterprise for review and approval by the Bureau. Current regulations require Gambling Businesses to submit their playing book form for review and approval every two years as part of the registration or license renewal process. Without a change in the current regulations, the playing book form approval process would remain as part of the contract approval process for TPPPS and the registration/license renewal process for Gambling Businesses, rather than simply requiring approval for new or amended forms for both entities.

PURPOSE:

This proposed action has been drafted to supplement the current requirement that TPPPS and Gambling Businesses maintain playing books for all sessions of play with an option to do so electronically. This proposed action will create uniform requirements and approval processes for both TPPPS and Gambling Businesses. Finally, the proposed regulations will consolidate the playing book requirements into a new chapter that will apply to both TPPPS and Gambling Businesses for clarity and simplicity, and to eliminate redundancy.

Subsection (b), paragraph (1) of Section 12200.13 in Chapter 2.1 and Section 12220.13 in Chapter 2.2 provide that a playing book must be “recorded in ink.” This has been interpreted to require hardcopy playing books. With advancements in electronic and virtual recordkeeping, providing for an electronic method of maintaining the playing books has been requested by the industry. These proposed regulations will offer an electronic method to comply with the playing book requirements, as well as the approvals necessary to ensure that the electronic playing book system and information are properly secure.

Moreover, the current regulations create a different playing book form approval process for TPPPS and Gambling Businesses. A TPPPS is required to submit a playing book form for approval with each gambling enterprise contract. Because a Gambling Business does not enter into a contractual relationship with a gambling enterprise, the Gambling Business is required to have a playing book form approved as part of the registration or license renewal process every two years. Both entities must submit the playing book form for review and approval even if the previously approved playing book form is still in use and has not changed. This results in unnecessary and repetitive approvals being requested by licensees and processed by the Bureau. These proposed regulations will separate playing book approvals from contract approvals and

registration/license renewal processes and create an approval process uniformly applied to both TPPPS and Gambling Businesses that will require only initial and amended playing book form approvals.

Finally, these proposed regulations will apply uniformly to both TPPPS and Gambling Businesses, to reduce the redundancy of maintaining mirroring requirements in two different chapters. This will provide simplicity, uniformity and clarity.

ANTICIPATED BENEFITS OF PROPOSED REGULATION:

These proposed regulations will have the benefit of providing one uniform and streamlined playing book approval process for TPPPS and Gambling Businesses and will provide an electronic playing book compliance option for licensees. These proposed regulations will allow each licensee to choose the method of playing book maintenance that best suits their business, while still maintaining the standards required to document each session of play. This will provide clarity, simplicity, and uniformity for TPPPS and Gambling Businesses.

The proposed regulations will also enhance transparency in the regulation of TPPPS and Gambling Businesses; and, will protect the health, safety, and general welfare of the public by aiding and preserving the integrity of controlled gambling.

This proposed action will make changes within Division 18 of Title 4 of the California Code of Regulations, as follows:

This subsection would provide that the Bureau shall notify the applicant within 10 working days if the application is accepted or deficient. The current requirement that a written notice to be sent to the primary owner or the designated agent would also be retained in this subsection.
- Subsection (d) – This provision would allow non-substantive changes to a previously approved playing book form to be deemed accepted upon notice to the Bureau, unless otherwise advised by the Bureau within 30 days. The Bureau would retain the ability to determine, on an individual case-by-case basis, that a particular change is substantive and to require approval pursuant to subsection (b).

UNDERLYING DATA:

Technical, theoretical, or empirical studies or reports relied upon: None.

BUSINESS IMPACT:

The Commission has made an initial determination that the adoption of these regulations would have no significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

For the most part, this proposed action only makes minor modifications to the requirements already in place for hardcopy playing books. Furthermore, the elimination of the requirements for redundant approval of the same playing book form, regardless of any change, should have a positive impact on the affected businesses.

The addition of provisions relating to electronic playing book forms and systems may have a business impact; however, that impact would not be significant. The possible adverse impact would come from the development of the electronic playing book system itself, and in the certification of the system. That impact may be offset, at least to a large extent, by the reduction in storage costs in that data would be stored electronically rather in hardcopy form. Furthermore, the use of the electronic playing book is a purely discretionary alternative and is not mandated by the proposed action.

SPECIFIC TECHNOLOGIES OR EQUIPMENT:

The proposed action does not mandate the use of specific technologies or equipment.

ECONOMIC IMPACT ASSESSMENT/ANALYSIS:

CREATION OR ELIMINATION OF JOBS WITHIN THE STATE OF CALIFORNIA:

It has been determined that the proposed action will not affect the creation or elimination of jobs. It only makes minor modifications to existing requirements for hardcopy playing books and adds a discretionary alternative for the use of electronic playing books.

CREATION OF NEW BUSINESSES OR ELIMINATION OF EXISTING BUSINESSES WITHIN THE STATE OF CALIFORNIA:

It has been determined that the proposed action will not affect the creation of new businesses or the elimination of existing businesses. It only makes minor modifications to existing requirements for hardcopy playing books and adds a discretionary alternative for the use of electronic playing books.

EXPANSION OF BUSINESSES CURRENTLY DOING BUSINESSES WITHIN THE STATE OF CALIFORNIA:

It has been determined that the proposed action will not affect the expansion of businesses currently doing business in California. It only makes minor modifications to existing requirements for hardcopy playing books and adds a discretionary alternative for the use of electronic playing books.

HEALTH AND WELFARE OF CALIFORNIA RESIDENTS:

It has been determined that the proposed action will protect the health, safety, and general welfare of California residents by aiding and preserving the integrity of controlled gambling.

WORKER SAFETY:

It has been determined that the proposed action will not affect worker safety because it has nothing to do with working conditions or worker safety issues.

STATE'S ENVIRONMENT:

It has been determined that the proposed action will not affect the State's environment because it has nothing to do with environmental issues.

CONSIDERATION OF ALTERNATIVES:

No reasonable alternative to the regulation would be either more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed regulation, or more cost-effective to affected private person and equally effective in implementing the statutory policy or other provision of law.

Set forth below are the alternatives that were considered and the reasons each alternative was rejected:

No reasonable alternative has been considered or otherwise identified and brought to the attention of the Commission.
